

North Valley Animal Disaster Group Standard Operating Guidelines

Title: NIGHT OPERATIONS

Objective: To assure personnel are as safe as possible during night operations

Description:

It is recommended that field operations cease from sunset to sunrise. By special permission of the Safety Officer, nighttime operations may resume. Please consider the following items:

- It is required that each responder have a minimum of TWO personal lights
- A headlamp is highly recommended
- It is much more dangerous entering an area that you have not seen in the daylight
- Additional lookouts may be required
- Monitoring of pertinent radio frequencies is required
- Communicate to the Division Group Supervisor if appropriate
